Chino-Japanese Situation Looms Large on the Financial Horizon During Session.

SEVERE REVERSAL OF PRICES

NEW TORK, May 5.—The Chino-Japanese situation looked large on the financial horizon today and resulted in another severe reversal of quoted prices, the second of the week. Net losses in the speculative favorites ran from two to four points, while "war specialties" suffered in greater degree.

The effect of today's sellings, which savored more than a little of urgent ilquidation, was to reduce by one-half some of the more extensive gains of the past six weeks. Today's weakness came after an early period of inactivity and irregularity, in which the only striking features were strengthening of Bethlehem Steel and Amalgamated Copper, for which there were well defined reasons and the weakness of Reading and some other high grade investment shares, which lacked explanation. Selling attained its widest proportions in the final hour, the turnover then exceeding the trading of the three preceding hours. Closing prices were at nearly the lowest of the day with a weak undertone.

Longs and continental Europe were credited with further heavy sales here closed continuing to offer our stocks long after the close of regular business in its own market.

Local traders helped the declining tendency by engaging in fresh commitments for the short account. The ease with which the market yielded was proof of its technical weakness on the constructive side.

WEST GETTING HIGHEST PRICE IN YEARS FOR WOOL

The three roads tapping the sheep raising country of the west, the Northwestern, Burlington and Union Pacific, have begun moving the wool clip to the east. Shearing all through Utah, Colorado, cano, Montana, Wyoming and Nebraska as been finished, and instead of the wool going into storage, as has been the rule n past years, is being shipped out on account of the prevailing high prices. it is asserted that all through Nebrasks and the west the flockmasters are melting around 30 to 22 cents per pound for their wool, the highest price in sev-

eral years. The clip is said to be heavy, Through the sheep country the report s that the lamb crop is the largest in the last five years. The weather has been mild, little snew and early range. The result has been that the loss has been at the lowest minimo

Slavs Win Battle Against Turks, but This Small Cheer in View of Galicia Defeat.

GERMANS GAIN IN THE WEST

LONDON, May 5 .- The Russians the defeat inflicted upon them in western Galicia by the Austrians and Germans, by badly beating the Turks, who had invaded Persia.

The defeat took place in a three days' battle near the frontier, and Petrograd reports that the Russians inflicted heavy losses on the Ottomans. If the success of the Muscovites has been followed up, military observers declare that Persia now should be free of its uninvited guests. This battle, however, was a small affair when compared with what Germany and Austria claim they have done to the Russians in Galicia. Their reports tonight state that some 30,000 Russians were captured and that a large number of guns were taken.

No Mention of Towns. There is no mention, however, of any towns, such as Gorlice and Tarnow, captured, which leads the British military critics to the conclusion that while the Germanic allies have won important local sugcesses, they have not driven the two months and his death is supposed succeed in doing this, however, it is asserted that a general retreat of the the whole Carpathian offensive, on which had served under General Custer. the Muscovites have spent so much time and so many lives, would be completely nullified.

The Russian side of the story is anxously awaited, for a big success in the east, it is believed here, would mean an immediate commencement of operations on a large scale in the west, for which the eGrmans are already making prepa-

Confined to Ypres Zone. In Belgium, thus far the fighting has been confined to the Ypres region, where Germans claim to have captured some villages which the British say they evacuated in the process of readjusting their line.

The rumors concerning the operations against the Dardanelles were confirmed tonight when the British war office and admiralty issued reports stating that after beating off Turkish attacks, the allied forces had taken the offensive on the Gallipoli peninsula and now were advancing into the interior. The result of the German submarine warfare today was the sinking of the

What Will My Automobile Parts Cost?

How Are They Built?

The above questions, vital to every purchaser of an automobile, are thoroughly answered in the window display of the Francis-Cullis Auto Company, at 2024 Farnam Street.

The price of any car may be low enough at first, but the question every prospective purchaser should ask is "What will the parts for the car cost me when I need them?" And in most cases if he can get an intelligent answer he finds that they would cost three or four times the first cost of the car. The parts for the Maxwell figure the nearest to the original cost of the car of any car sold on the market today.
